## EDITORIAL WORDS

*apt. Mohammad Rizki Fadhil Pratama, S.Farm., M.Si.*  
*Editor in Chief*  
*J Mol Docking*

*Assalamu'alaikum Wr. Wb.*

Alhamdulillahirabbil 'alamin. After a long wait for almost 1 years from the first planned, finally the new scientific journal of the Department of Pharmacy Universitas Muhammadiyah Palangkaraya can be published. This scientific journal was named **Journal of Molecular Docking** (*J Mol Docking*), inspired by one of the most popular *in silico* methods in computer-aided drug design. Journal of Molecular Docking published every 6 months (2 issues/year) every June and December.

This edition contains five articles consisting of writings from three countries including India, Mexico, and Nigeria. The authors come from several institutions, including Maulana Azad National Urdu University, Osmania University, Osmania University College for Women, Vignan's Foundation for Science, Technology & Research, Ahmadu Bello University, Benemérita Universidad Autónoma de Puebla, Universidad Autónoma de Guerrero, The Tamil Nadu Dr. M.G.R. Medical University, and Anna University.

Editorial boards are fully aware that there are still room for improvement in this edition, hence with all humility willing to accept constructive suggestions and feedback for improvements to the publication for the next editions. The editorial board would like to thank all editors and reviewers, and contributors of the scientific articles who have provided the repertoire in this issue. We hope that all parties, especially the contributors of the articles, could re-participate for the the publication in the next edition on December 2022.

*Wassalamu'alaikum Wr. Wb.*

Palangka Raya, June 2022

# Table of Contents

## JOURNAL OF MOLECULAR DOCKING

*J Mol Docking* – ISSN: 2798-138X (online)

Volume 2 Issue 1 June 2022

### Sections: ORIGINAL RESEARCH ARTICLES

#### **Pharmacophore Based Virtual Screening and Docking of Different Aryl Sulfonamide Derivatives of 5HT<sub>7</sub>R Antagonist**

**Nahid Fatema** / Maulana Azad National Urdu University & Osmania University, India  
**Vijjulatha Manga** / Osmania University & Osmania University College for Women, India  
**Lingala Yamini** / Osmania University College for Women, India  
**Salman Ahmad Khan** / Maulana Azad National Urdu University, India  
**Qasim Ullah** / Maulana Azad National Urdu University, India

1 – 15

#### **Homology Modeling and Molecular Docking Studies of Selected Substituted Tetradecane on vlsE *Borrelia spielmanii***

**Venu Paritala** / Vignan's Foundation for Science, Technology & Research, India  
**Harsha Thummala** / Vignan's Foundation for Science, Technology & Research, India  
**Talluri Naga Santosh Mohith** / Vignan's Foundation for Science, Technology & Research, India

16 – 28

#### **Molecular Docking Screening and Pharmacokinetic Studies of Some Boron-Pleuromutilin Analogues against Possible Targets of *Wolbachia pipientis***

**Fabian Audu Ugbe** / Ahmadu Bello University, Nigeria  
**Gideon Adamu Shallangwa** / Ahmadu Bello University, Nigeria  
**Adamu Uzairu** / Ahmadu Bello University, Nigeria  
**Ibrahim Abdulkadir** / Ahmadu Bello University, Nigeria

29 – 43

#### ***In Silico* Approach: Effect of the Oxidation Iron State (Heme-Group) in Steroidogenesis Pathways**

**David Mora-Martinez** / Benemérita Universidad Autónoma de Puebla, Mexico  
**Jorge Organista-Nava** / Universidad Autónoma de Guerrero, Mexico  
**Jesús Sandoval-Ramirez** / Benemérita Universidad Autónoma de Puebla, Mexico  
**Berenice Illades-Aguilar** / Benemérita Universidad Autónoma de Puebla, Mexico  
**Alan Carrasco-Carballo** / Benemérita Universidad Autónoma de Puebla & Universidad Autónoma de Guerrero, Mexico

44 – 57

#### **Comparative *In-Silico* Molecular Docking of Silymarin for SARS-CoV-2 Receptor**

**Michael Antony Samy Amutha Gnana Arasi** / The Tamil Nadu Dr. M.G.R. Medical University, India  
**Sapthasri Ravichandran** / The Tamil Nadu Dr. M.G.R. Medical University, India  
**Irudayam Iyaraman** / Anna University, India

58 – 67

# Author Guidelines

## JOURNAL OF MOLECULAR DOCKING

*J Mol Docking* – ISSN: 2798-138X (online)

1. Writing is the result of original research and literature review in the field of pharmacy, chemistry, bioinformatics, and others using *Molecular Docking Simulation* as its main analysis method which have never been published in other scientific publication media.
2. Manuscripts that have been published in the form of a preprint on several platforms such as arXiv, SSRN, and ResearchGate are welcome to publish.
3. The manuscript is written in English with Book Antiqua font 10 pt, two-column, density 1.15 spaces, on A4 paper with a top-down margin of 2.5 cm and right-left margins 1.5 cm.
4. The manuscript is typed with MS-Word program using the provided template and saved in .doc or .docx format.
5. The manuscript is typed strictly with the following rules:
  - a. The title, short and clear, written in English. The title length does not exceed 20 words.
  - b. Authors, listed without mention of title or degree, under the name including the affiliation and complete address, and email of the corresponding author. The author's name, which consists of one word, must be repeated twice for first and last names. To author with names of more than two words, the author's last name consists of only one word, the rest is written as the first name.
  - c. Abstract, written in English which is a summary of the article. The abstract is created in one paragraph and a maximum of 250 words with Book Antiqua font 9 pt, single column, and space 1. Points that must be listed in the abstract include the research objectives, methods, results, conclusions, and keywords. The number of keywords is between three and five keywords.
  - d. Introduction, contain background, reasons for the importance of underlying research or hypotheses, general approaches and objectives of the research and relevant literature review. The number of paragraphs not restricted but the contents must include background, objectives, positions on previous research, as well as the novelty of the research. The little theoretical basis which indirectly related to the contents of the article could be included without sub-chapters required. Citation is written in the form of the last name followed by the year of publication. If the author numbered two people, the last names of the two writers were written separated by the "&". Citation of more than one author written in "et al".
  - e. Methodology, Research method consists of 2 sub-chapters including materials and methods. If data analysis is specific, or the way of analysis is novel, then data analysis subchapter could be added. The sub-chapters are written without numbering or bullet.
  - f. Results and Discussion, at least contain three subjects (1) description of results, (2) interpretation or explanation of results, and (3) comparative of results with previous studies results. If the subchapters very length could be made sub-sub-chapters with Arabic numbering. Description of the results can be in the form of tables and figures with a serial number (Table uses a sequence of Roman numerals and placed at the top, while figures using Arabic numeric sequence and placed in the below).
  - g. Conclusion, made in a single paragraph without the citation contains the final conclusion and suggestions for advanced research.
  - h. References, a list of recently selected topics is published last five years (minimum 75% of at least 10 references). The bibliography is written in appearance order chronologically with the serial number (Vancouver System) and suggested using a reference management application such as EndNote, Mendeley, Zotero, and other applications.
6. Authors whose manuscripts are published are free of charge for both Publication cost and article processing charge.
7. Authors will get full access to the article published on e-journal of Universitas Muhammadiyah Palangkaraya at the website <https://journal.umpr.ac.id/index.php/jmd>.
